

HOW TO GET CONTACT INFORMATION FOR U.S. SENATORS

To get the Contact information for any U. S. Senator go to <http://www.senate.gov>

Then click on Senators and you will reach an alphabetical list of all U.S. Senators. (You can also search for Senators by entering the name of a state).

When you reach a Senator's home page, click on Contact me or Contact us – however it might be worded. That will give you Washington DC office contact information and offices in the Senator's home state. It will also give you the option of emailing the Senator.
